JESUS 2.0

BE A HERETIC · CHANGE THE WORLD

Jesus was a Heretic. A Rebel and a Troublemaker. He spoke truth to power and love to fear. He opposed man-made hierarchies wielding repressive control over weaker individuals and troublesome groups. He challenged hypocritical leaders using their ill-gotten authority to impose unjust social and spiritual "laws" upon the common man, and woman. Jesus championed diversity, equity, and inclusion, while opposing unchecked political powers, corrupt systems, and out-of-touch elites. He preached an unconditional love of all including self, neighbors, and enemies. He answered visions and lifted veils, showing people a better way to live. A more natural, wholesome, and wholistic approach to the world and all of creation. Jesus' original words and deeds gave expression to the underlying powers of the TAO. An abiding force offering humans a deeper unity with one another and the rest of planet Earth. We live in the future. It offers us immense possibilities, but only if we take the next step and create a better world. Stepping over the invisible fences, and seeing our world in terms of abiding love, unity of purpose, harmony of peoples, and grace bestowed upon all. A Paradise on Earth. Go forth and BELIEVE in Jesus 2.0, and act in the spirit of the TAO.
